VW Billet Seat Track Adjustment Handles Installation Instructions - [Click HERE to Shop](#)

Proper service and repair procedures are vital to the safe, reliable operation of all motor vehicles as well as the personal safety of those performing the repairs. Standard safety procedures and precautions (including use of safety goggles and proper tools and equipment) should be followed at all times to eliminate the possibility of personal injury or improper service which could damage the vehicle or compromise its safety.

INSTALLATION NOTES

- **RH** refers to the *passenger side* of the vehicle.
- **LH** refers to the *driver side* of the vehicle.
- Always use the proper torque specifications.
- If applicable to this installation, torque specifications will be listed throughout the document and at the end as well.
- Please read all of these instructions and familiarize yourself with the complete process **BEFORE** you begin.

GENERAL PREPARATION AND SAFETY INFORMATION

ECS Tuning cares about your health and safety, please read the following safety information. This information pertains to automotive service in general, and while it may not pertain to every job you do, please remember and share these important safety tips.

- Park your car in a safe, well lit, level area.
- Shut the engine off and remove the key from the ignition switch.
- Make sure any remote start devices are properly disabled.
- **ALWAYS** wear safety glasses.
- Make sure the parking brake is applied until the vehicle is safely lifted and supported.
- Whether lifting a vehicle using an automotive lift or a hydraulic jack, be sure and utilize the factory specified lift points.
- Lifting a vehicle in an incorrect location can cause damage to the suspension/running gear.
- **ALWAYS** support the vehicle with jack stands.
- **ALWAYS** read and follow all safety information and warnings for the equipment you are using.

NEVER get underneath a vehicle that is supported only by a jack, and **ALWAYS** make sure that the vehicle is securely supported on jack stands.

INSTALLING THE SEAT TRACK ADJUSTMENT HANDLE

Step 1:

Firmly grasp the stock plastic handle (highlighted in **RED**) and pull it free from the rail.

Step 2:

Using the provided 2.5mm allen key, install the two provided screws (arrows) through the holes in left side of the handle and into the threaded holes in the other side as shown. Loosely start the two provided set screws (circled in **YELLOW**) into the threads on the top of the handle as shown.

We **HIGHLY** suggest adding a drop of blue thread-locker to the threads of each of the four screws to ensure they won't back out over time.

INSTALLING THE SEAT TRACK ADJUSTMENT HANDLE

Step 3:

Slide the new handle onto the rail as far as it will go.

Step 4:

Tighten the two set screws until fully snug using the provided 1.5mm allen key.

Congratulations, your installation is complete!

SCHWABEN - BUILD THE ULTIMATE TOOL COLLECTION

At ECS Tuning, we carry a line of high quality Schwaben Tools and Equipment to help you build your ultimate tool collection. Never before has affordability and quality been so closely related. Our entire Schwaben line is subjected to strict in house testing for strength and durability. See what we have to offer and equip your garage without breaking the bank.

Your Billet Seat Track Adjustment Handle installation is complete!
