

Pento High Performance 5W-40

Fully Synthetic High Technology Fuel Economy Engine Oil

Description

Pento High Performance 5W-40 is an especially formulated fuel economy engine oil. It is based on synthetic base oils only, the most modern and best engine oil additives currently available and a very shear stable VI - Improver. The combination of these exquisite components guarantees an excellent engine performance under the most severe driving conditions.

Pento High Performance 5W-40 is ideally suited as an all season engine oil.

Pento High Performance 5W-40 contains a special combination of very efficient friction modifiers which cause the engine to run very smoothly. Even more important, it causes fuel savings in a recognizable way.

Pento High Performance 5W-40 can be used in gasoline and diesel engines with and without turbocharger.

It is miscible with all standard engine oils based on mineral or synthetic oils.
