

Manufacturer's Information

BMW 3 Series Rear Shock Mount Reinforcement Plates

(included in ECS suspension refresh kits, rear mount kits, and cup/coilover installation kits)

Why They're Better...

ECS Tuning Rear Shock Reinforcement Plates Offer:

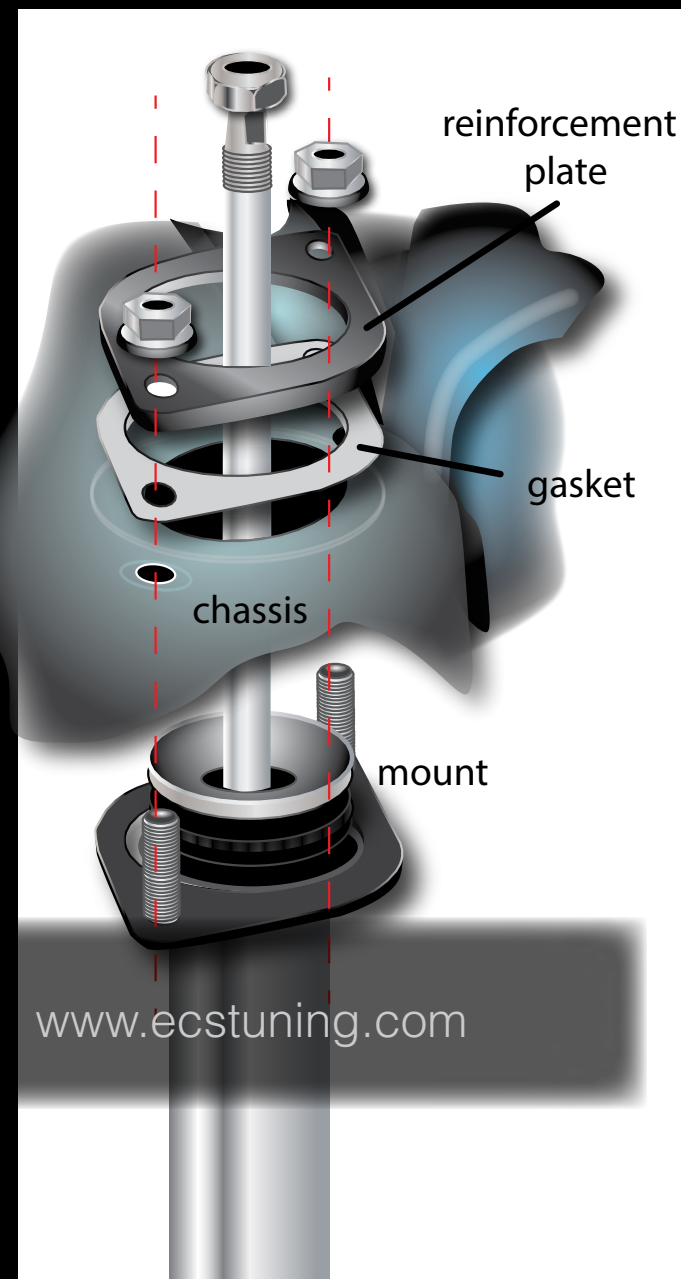

- for all 3 Series models 1984-2006 and Z3/Z4 models 1996-2008
- stiffer, stouter, stronger than OEM plates
- more shock tower protection with reduced chassis distortion
- less chance of shock mount "blowout"
- prolongs life of rear shock mount
- available for sedan, coupe, and convertible
